April 2026 Update:

The new Arch contract took effect April 1. The same benefits apply while you are traveling in your RV or car in the US, Mexico and Canada. This change was caused by three costly overseas evacuations that would have led to a substantial increase in premiums. It is great that we could help these three members, but we could not continue the program without this change.

Doug Uhlenbrock has moved into the Executive Director's Office and Jack O'Reilly Tanner has moved into the Events Director's Office.

Jack and the event staff are busy preparing for Sedalia, July 1 to 4. The Governing Board will be held on June 30.

Kobie Justice has been added to staff as Digital Marketing Assistant and attended his first convention in Perry,

We have signed a contract for Tucson rally in 2028. This will be a Thursday to Sunday rally with departure on Monday.

There has been a problem with the Michelin tire program. Member payments were not being handled properly by Michelin. This appears to be a problem on the Michelin side since we have made no changes on our side. We are working with Michelin to correct this problem.

We are in the process of marketing the two residential properties adjacent to Clough Pike.

We have begun the effort to revise and update our website.

Work on Horizon continues. Most of the first round of work is completed and a list of additional features is being reviewed.

The IT Staff is working with the other departments to define a new website. It will be designed to allow each division to update their material without going through the IT Department.

Please send any feedback or questions to Bweithofer@frva.com.

Bob Weithofer, FRVA Vice President
